PROCEEDS BENEFIT:

Vizavance, formerly Prevent Blindness Oklahoma, is the only non-profit agency dedicated exclusively to advancing children's education through better vision in the state of Oklahoma.

Children's Vision Screening is the cornerstone program of Vizavance. No child should lose their sight or develop lifelong vision problems because they never received a vision screening. The Vizavance screening process includes: Distance Visual Acuity Screening (Chart), Near Vision Test, Color Vision Test, Stereopsis Test, and the *SPOT Vision Screener Camera*.

Established in 1965, Vizavance serves all 77 counties and provides free vision screenings for children at public and private schools, preschools, Head Starts, and daycare centers. Vizavance intervention does not stop there; follow-ups are made, and if financial assistance is needed for these children, we provide the resources necessary for free eye exams and prescription glasses by an eye care professional.

Vizavance continues to screen nearly 300,000 children and refers about 12% of them to eye-care professionals for further evaluation.

OUR MISSION

Advancing children's education through better vision.

OUR VISION

To be the leading nonprofit organization in the region providing vision screenings to all children so they may reach their full educational potential.

Stacey Dyson said inspiration for the home's contemporary and modern themes result from the couple's years of traveling, enjoying and admiring upscale hotel and resort designs.

An amalgam of two eras, this 1932 home blends historic and modern design. The front of the home showcases original charm, while a new addition on the back provides an ample kitchen, dining and living areas, with a new master suite situated above. “Since the original Tudor home was completely preserved when we purchased it, we felt a duty to maintain its original beauty while adding our own perspective,” Shaun said.

Highlights:

- Built in 1932 by J. A. Nichols
- Remodeled in 2021 with 1,000-square-foot addition to accommodate a growing family
- Collaborated with architect Sam Gresham, Jeff Blake of Gumerson Blake Design Build and designer Molly Cooke of Molly Cooke Interiors
- Kitchen features Arabescato Corchia marble, blonde Scandinavian-style cabinets, Miele appliances, antique brass Waterworks sink fixtures and 28-foot floor-to-ceiling windows for inside-outside aesthetic
- Outdoor living space features a 24-foot cantilever patio braced by two massive 35-inch columns, a Sunbrite TV and ample seating in an oval-shaped couch
- Tucked-away spice storage, power space for auxiliary appliances, charging station for devices and a used linens bin keep countertops clean and clutter free
- Various elevation changes lead to room after room, highlighted by original arched doorways, unique ceiling details, a formal living room with vaulted beams and a sunken den with modern bar and fireplace
- Don’t miss the hidden panel door in the hallway – one of many clever concepts
